# 1 Viz Pilot Edge 1.5.1

**Release Date:** 2020-03-02

These are the release notes for Viz Pilot Edge 1.5.1. This document describes the user-visible changes that have been done to the software since release 1.5.0.

---

## 1.1 Fixed Issues

- The **Show more** button in the element search dialog now works both when a concept is selected and when no concept is selected. (VPE-3183)
- 

## 1.2 System Requirements

### 1.2.1 Hardware

There are no known hardware limitations for Viz Pilot Edge, other than requirements stipulated by newsroom systems that are hosting the client.

### 1.2.2 Software

If running Viz Pilot Edge inside a browser, the following minimum requirements apply:

- Microsoft Internet Explorer 11 +
  - Chrome 64 +
  - Safari 11.0 +
- 

## 1.3 Upgrading

When upgrading from a previous version of Pilot Edge, the previous version may still be presented by the host browser for a short time due to client side caching.

Clear the host browser cache To prevent this. If you are using the default Internet Explorer host, open Internet Explorer, press **CTRL + SHIFT + DELETE**, select *Temporary Internet files and website files* and click **DELETE**.

---

## 1.4 Important Notes

- If there are any issues with map fields when running in Microsoft Internet Explorer 11 +, remove *include all local sites not listed in other zones* and turn off *detection of intranet zones* in the IE11 policy settings. (VPE-2329)

## 1.5 Known Issues

- Graphic elements in timelines created using the Pilot Edge plug-in in OpenMedia do not show up in Director's MOS playlist. (VPE-2193)
- In Octopus 8, images of 4K resolution and above are not supported due to memory constraints. (VPE-2412)
- In Octopus 8, keyboard navigation via TAB does not work reliably due to constraints in Octopus. (VPE-2615)

---

## 2 Viz Pilot Edge 1.5.0

**Release Date:** 2019-12-10

These are the release notes for Viz Pilot Edge 1.5.0. This document describes the user-visible changes that have been done to the software since release 1.4.1. This release adds precision and flexibility to element and template searches, and greatly increases the search speed.

---

### 2.1 Changes And New Features

- Improved the speed of loading templates and elements. (VPE-2634)
  - Added more options to element searches, like saved date and library status. (VPE-2726)
  - Any entered search term is no longer highlighted in the titles in the element list. (VPE-2956)
- 

### 2.2 Fixed Issues

- Element searches are no longer limited to what is already loaded in the client, but will be performed over all elements in the database. (VPE-2634)
  - Fixed an error in the preview panel that occurred when toggling Auto-refresh in IE. (VPE-2745)
  - Fixed MOS Items backward compatibility issue between different Pilot Edge versions. (VPE-2618)
- 

### 2.3 System Requirements

#### 2.3.1 Hardware

There are no known hardware limitations for Viz Pilot Edge, other than requirements set forward by newsroom systems that are hosting the client.

#### 2.3.2 Software

If running Viz Pilot Edge inside a browser, the following minimum requirements apply:

- Microsoft Internet Explorer 11 +
- Chrome 64 +
- Safari 11.0 +

## 2.4 Upgrading

When upgrading from a previous version of Pilot Edge, the previous version may still be presented by the host browser for a short time due to client side caching.

To prevent this, clear the host browser cache. If you are using the default Internet Explorer host, open Internet Explorer, press **CTRL + SHIFT + DELETE**, select *Temporary Internet files and website files* and click **DELETE**.

---

## 2.5 Important Notes

- If there are any issues with map fields when running in Microsoft Internet Explorer 11 +, remove *include all local sites not listed in other zones* and turn off *detection of intranet zones* in the IE11 policy settings. (VPE-2329)
- 

## 2.6 Known Issues

- Graphic elements in timelines created using the Pilot Edge plug-in in OpenMedia do not show up in Director's MOS playlist. (VPE-2193)
- In Octopus 8, images of 4K resolution and above are not supported due to memory constraints. (VPE-2412)
- In Octopus 8, keyboard navigation via TAB does not work reliably due to constraints in Octopus. (VPE-2615)

---

## 3 Documentation

Documentation for Viz Pilot Edge is available at the Vizrt Documentation Center:

- [Viz Pilot Edge User Guide](#)
- [Pilot Data Server Administrator Guide](#)

---

## 4 Support

Support is available at the [Vizrt Support Portal](#).
