Mosart Web Applications Release Notes

Version 2.2

Copyright © 2025 **Vizrt**. All rights reserved.

No part of this software, documentation or publication may be reproduced, transcribed, stored in a retrieval system, translated into any language, computer language, or transmitted in any form or by any means, electronically, mechanically, magnetically, optically, chemically, photocopied, manually, or otherwise, without prior written permission from Vizrt.
Vizrt specifically retains title to all Vizrt software. This software is supplied under a license agreement and may only be installed, used or copied in accordance to that agreement.

Disclaimer

Vizrt provides this publication “as is” without warranty of any kind, either expressed or implied. This publication may contain technical inaccuracies or typographical errors. While every precaution has been taken in the preparation of this document to ensure that it contains accurate and up-to-date information, the publisher and author assume no responsibility for errors or omissions. Nor is any liability assumed for damages resulting from the use of the information contained in this document. Vizrt’s policy is one of continual development, so the content of this document is periodically subject to be modified without notice. These changes will be incorporated in new editions of the publication. Vizrt may make improvements and/or changes in the product(s) and/or the program(s) described in this publication at any time.
Vizrt may have patents or pending patent applications covering subject matters in this document. The furnishing of this document does not give you any license to these patents.

Antivirus

Vizrt does not recommend or test antivirus systems in combination with Vizrt products, as the use of such systems can potentially lead to performance losses. The decision for the use of antivirus software and thus the risk of impairments of the system is solely at the customer's own risk.

There are general best-practice solutions, these include setting the antivirus software to not scan the systems during operating hours and that the Vizrt components, as well as drives on which clips and data are stored, are excluded from their scans (as previously stated, these measures cannot be guaranteed).

Technical Support

For technical support and the latest news of upgrades, documentation, and related products, visit the Vizrt web site at www.vizrt.com.

Release Date: 2025-02-28

We're thrilled to announce the launch of **Web Applications 2.2**, packed with exciting new features, polished designs and productivity-enhancing improvements. This release continues to refine your experience, with notable updates to **Showmaker**.

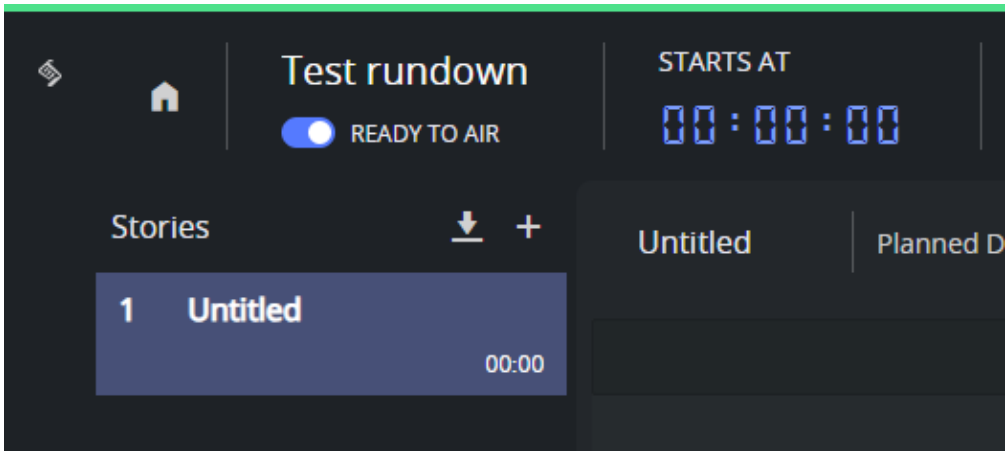
We value your insights and encourage you to share your feedback, feature requests or comments, to help us continue to innovate.

1 Showmaker

Showmaker is revolutionizing how you can create rundowns for Viz Mosart. Although still in "early access" mode, it's now closer than ever to being production-ready. Here's what's new:

1.1 Ready To Air

Set a rundown *ready to air*, to push it into Viz Mosart.



1.2 On Air Status

You now see exactly what Viz Mosart has on air, from Showmaker. This opens the possibility of Showmaker now being part of your operational interface.

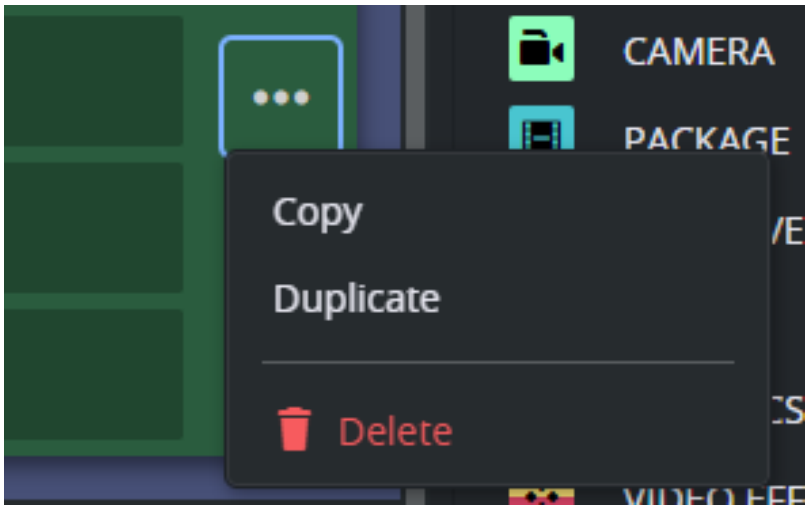
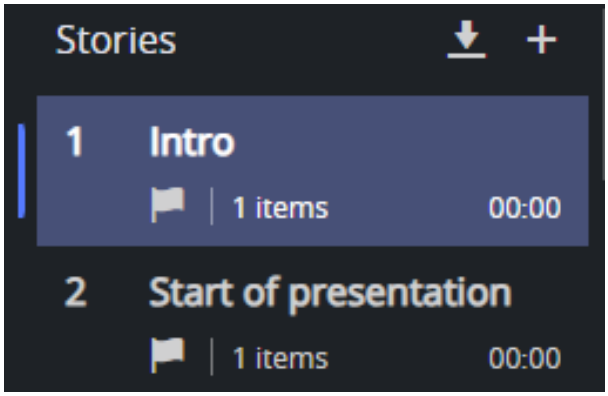
1.3 Copy/Paste/Duplicate

Stories and story items can now be duplicated, copied and pasted, even between rundowns.



1.4 Story List Design

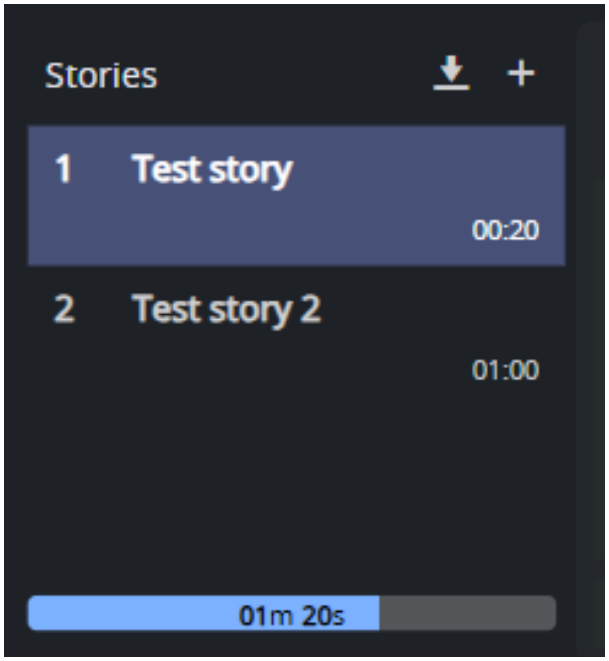
A new-look Story List includes *auto-numbering* and a flag indicating *manual* items.



1.5 Planned Duration Comparison

A total duration progress bar compares planned duration of the rundown to the combined duration of all stories, to help with show planning.

Copyright © 2025 Vizrt



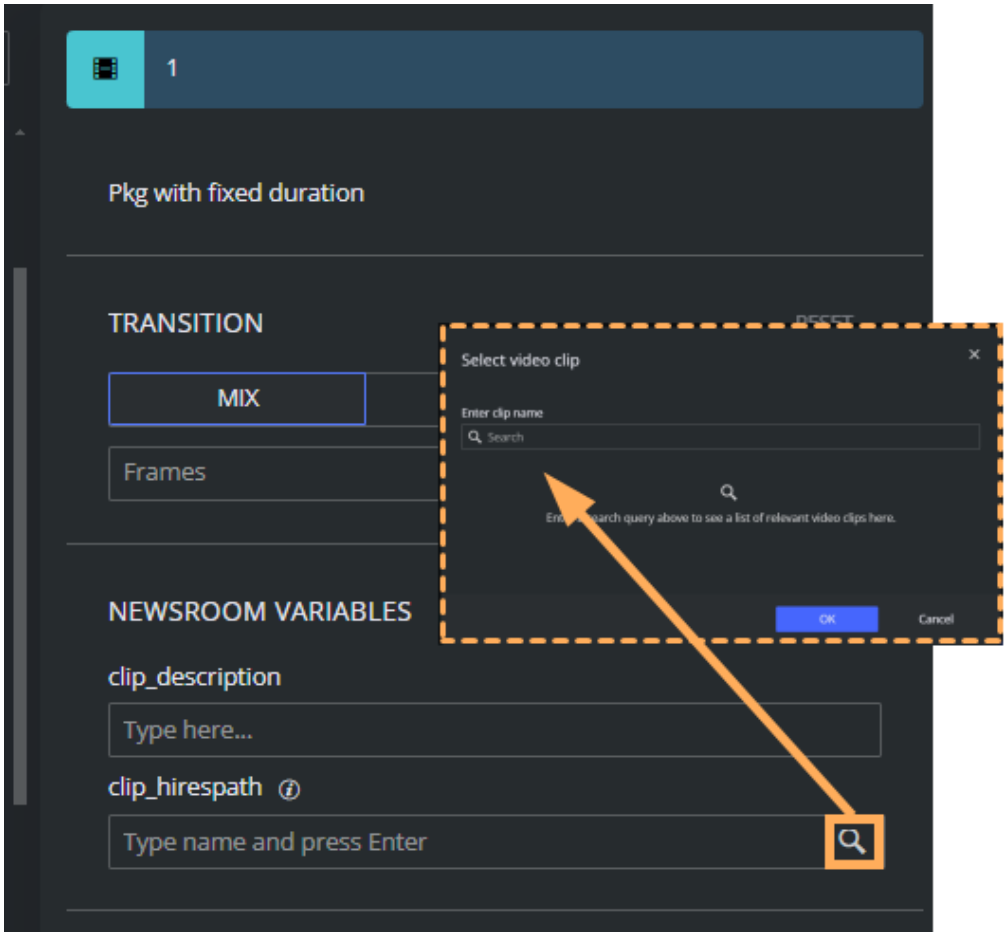
2 NRCS Plugin

2.1 Clip Search

The NRCS Plugin can now connect to the *active* Viz Mosart server and search for clips on the connected video servers.

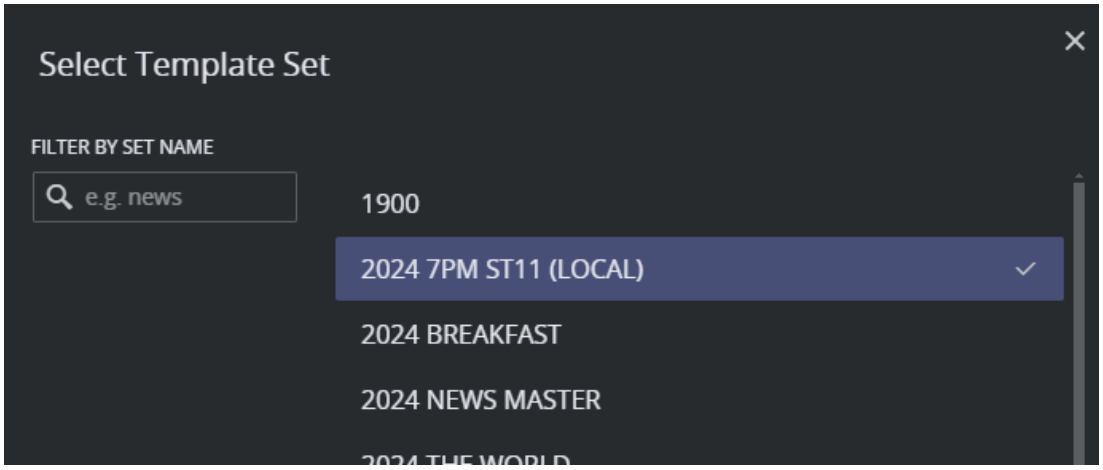
> **Note**: Requires Viz Mosart 5.11 or later.

Copyright © 2025 Vizrt



2.2 Improved Gallery/Template Set Selection

A redesigned Gallery/Template set selector now displays long template set names.



Copyright © 2025 Vizrt

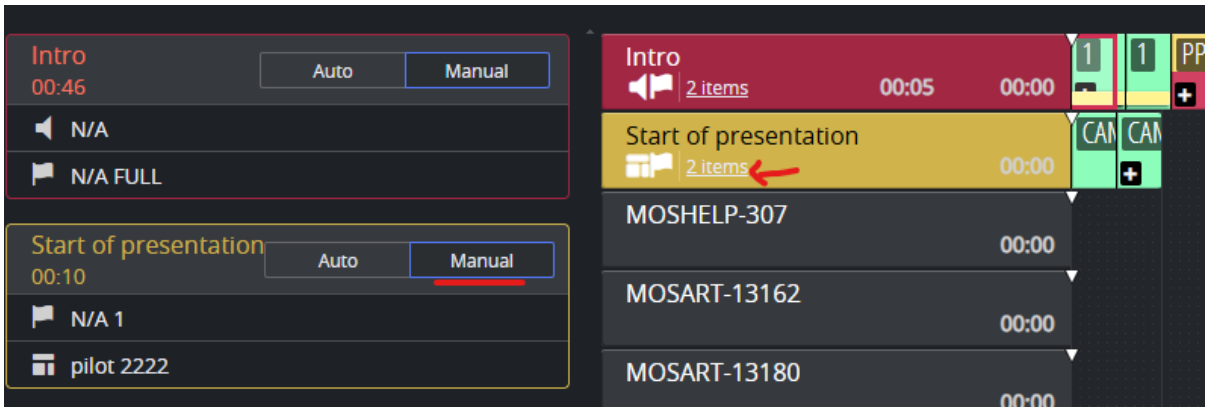
2.3 Support For OpenMedia

The OpenMedia NRCS is now supported by the NRCS Plugin.

3 Rundown Viewer

3.1 Manual Items

You can now see manual items in the Story Script section of the Rundown Viewer.



3.2 Ad-Lib Colors

We now correctly represent the colors of the different types of Adlib templates.

> ⚠ **Note**: Requires Viz Mosart 5.11 or later.

4 Mosart REST API

Mosart Web Applications can now be used as a proxy to call the Mosart REST API on the current active server.

4.1 API Documentation

With Web Apps running, you can browse the API documentation at http://[web-apps-machine:port]/mosart/swagger .

5 Bug Fixes

6 Installation And Upgrade Process

- **Installation:** To download this version, please visit the Vizrt FTP site at download.vizrt.com and navigate to */ products/VizMosart/Latest Version/WebApplications/.*
- **Upgrade:** The installer manages the upgrade, automatically removing older versions of **Vizrt Mosart Web Applications** and **Vizrt Mosart Web Applications Configuration Tool** before installing the new package. Remember to *close* any running version of the Vizrt Mosart Web Applications Configuration Tool before upgrading.

7 System Requirements & Documentation

- Ensure compatibility with Windows 10, Windows Server 2022, and latest Chrome/Edge for a seamless experience across all Web Applications.
- **NRCS Plugin**: Works with any version of Viz Mosart.
  NRCS Plugin with Viz Pilot Edge requires Viz Pilot Edge 3.1 or later.
- **Timing Display**: Viz Mosart 5.0.3 or later.
- **Rundown Viewer**: Viz Mosart 5.1.0 or later.
- **Showmaker**: Viz Mosart 5.7.0 (MOS 4.0 support introduced) or later.

User guides are accessible within each application. Latest insights and instructions are continually updated to the Vizrt Documentation Center.

8 Support

Support is available at the Vizrt Support Portal.
